

Mondi Group

UN Sustainable Development Goals Index 2023

UN Sustainable Development Goals

We have just a few years left to achieve the 2030 agenda of the UN Sustainable Development Goals (SDGs). As a global society we need to accelerate action to deliver on the SDGs. At Mondi, we have identified seven SDGs that are strategically relevant for us and which demonstrate the strong link between our activities and the UN SDGs.

These SDGs cover areas with the greatest impact on our business and where we can contribute to positive change at scale. In our selection, we considered both the positive and potentially negative impacts of our operations to determine the strategic relevance of each SDG.

We will continue to measure our contribution to the SDGs using our MAP2030 framework. This includes evaluating the alignment of goals and sub-targets with our business activities across our entire value chain; our ability to use our skills and resources to help drive change; and the importance of issues to our stakeholders.

The second part of this index provides a comprehensive mapping considering all 17 SDGs and identifies SDG targets and sub-targets with references to where information on our contribution can be found.

Clean water and sanitation

Our manufacturing is water intensive, as our mills and converting operations impact on water resources through their operations. Water is also used in the fibre supply chain. We manage our impacts on freshwater resources to meet rising demand for sustainable products while managing our water impacts at a landscape level. We aim to use water efficiently and increase water recycling in our operations.

Affordable and clean energy

Energy self-sufficiency improves our profitability and increases energy security, while reducing carbon emissions. We invest in optimising energy and process efficiencies and replacing fossil fuel-based energy with renewable sources. Some of our mills provide electricity generated by the plant to local communities.

Decent work and economic growth

We work towards a fair, safe, diverse and inclusive workplace for 22,000 Mondi employees who are offered good working conditions, upskilling programmes and individual career opportunities. We promote physical and mental wellbeing and purposeful employment. Our support for local enterprises creates employment opportunities, strengthens the local supply chain and promotes resilient communities.

Industry, innovation and infrastructure

We invest in local infrastructure and our operations, creating business opportunities and driving collaboration. Our purpose to make packaging and paper that is sustainable by design means that we take a leading role in product innovation and redesign to shape the future of a circular economy. We have clear investment plans to upgrade our operational infrastructure, drive resource efficiency and shift to renewable energy sources.

Responsible consumption and production

Innovation in sustainable packaging and reducing plastic waste provides a growth opportunity, while also reducing our environmental impacts. The efficient use of raw materials and energy is fundamental to being a sustainable business. We innovate with customers to design fit-for-purpose packaging and paper solutions for a sustainable end-of-life.

Climate action

Our climate action tackles the interconnected challenges of climate change, deforestation, water scarcity and biodiversity loss. We commit to reducing greenhouse gas emissions, improving the resilience of forests and managing our impacts on biodiversity and freshwater ecosystems.

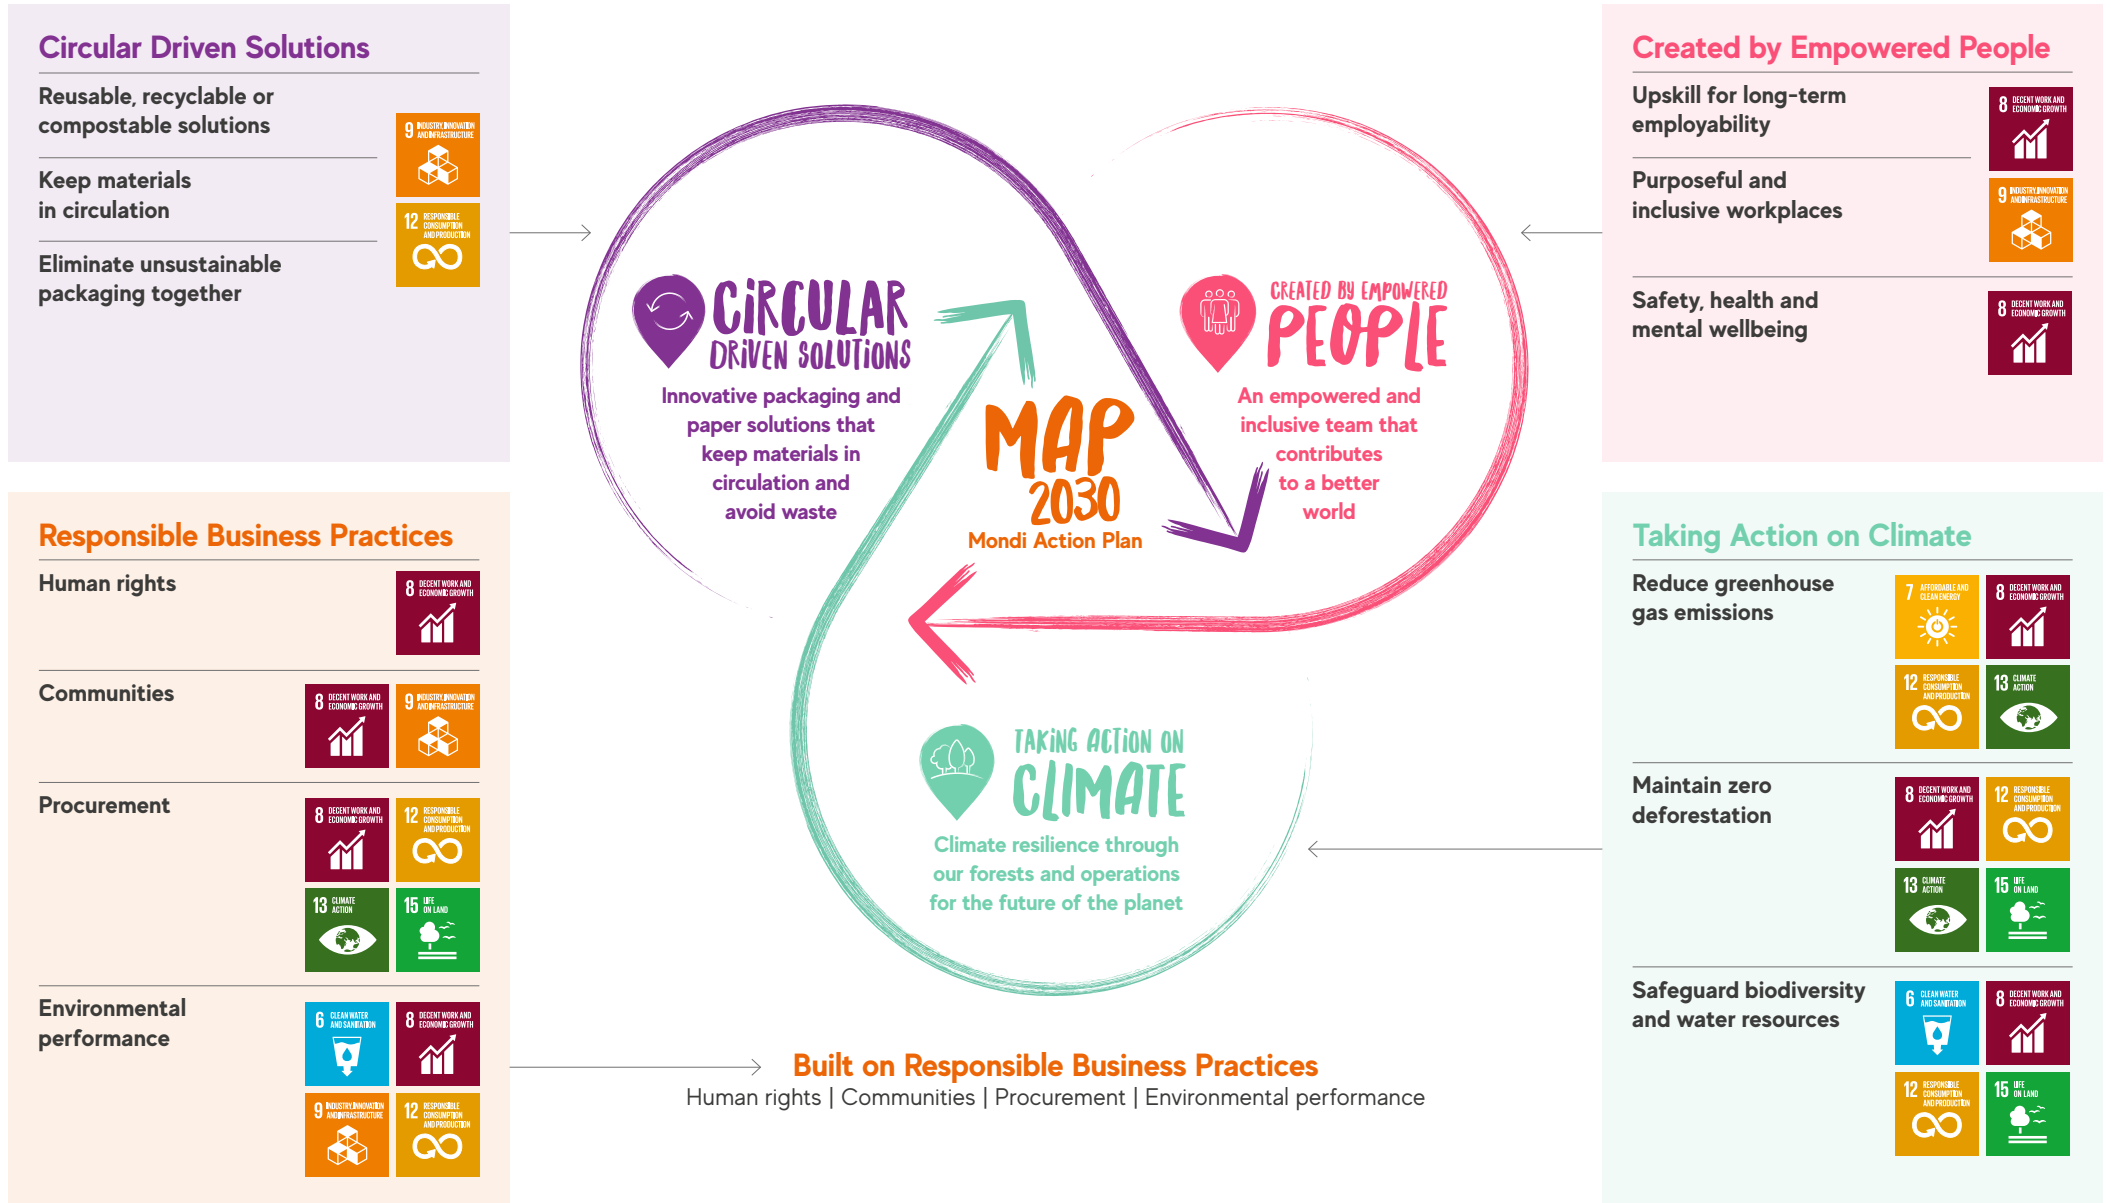

We support the transition to a low-carbon economy as we deliver against our science-based Net-Zero targets. We will continue to strategically invest in our operations and increase the usage of renewables.

Life on land

In our forestry landholdings in South Africa we develop and implement best practices to secure long-term productivity and resilience, while managing conservation areas and key ecosystems to maintain biodiversity, water and other natural capital. This involves engaging with scientific organisations and partners on how to improve biodiversity management and the resilience of forests to climate change.

Our core SDGs mapped against our framework

SDG index

Key:

☐ Mondi's strategically important SDGs

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report	
 Goal 1 End poverty in all its forms everywhere	1.4	By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance	<ul style="list-style-type: none"> ● Responsible Business Practices – Communities ● Responsible Business Practices – Human rights 	<ul style="list-style-type: none"> Investing in our communities (page 82) Indigenous and land rights (page 80)
	1.5	By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters	<ul style="list-style-type: none"> ● Responsible Business Practices – Environmental performance 	<ul style="list-style-type: none"> Listening to communities (page 75) Environmental incidents (page 75)
	1.a	Ensure significant mobilisation of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions	<ul style="list-style-type: none"> ● Circular Driven Solutions ● Responsible Business Practices – Communities 	<ul style="list-style-type: none"> Case study: Life cycle thinking with the World Food Programme (page 33) Investing in our communities (page 82)
 Goal 2 End hunger, achieve food security and improved nutrition and promote sustainable agriculture	2.1	By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations including infants, to safe, nutritious and sufficient food all year round	<ul style="list-style-type: none"> ● Circular Driven Solutions 	<ul style="list-style-type: none"> Case study: Life cycle thinking with the World Food Programme (page 33)
	2.a	Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries	<ul style="list-style-type: none"> ● Responsible Business Practices – Communities 	<ul style="list-style-type: none"> Investing in our communities (page 82)

SDG index continued

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report	
 Goal 3 Ensure healthy lives and promote wellbeing for all at all ages	3.3	By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases	<ul style="list-style-type: none"> Created by Empowered People 	<ul style="list-style-type: none"> Occupational health programmes (page 49) Local occupational health programmes (page 50)
	3.8	Achieve universal health coverage, including financial risk protection, access to quality essential healthcare services and access to safe, effective, quality and affordable essential medicines and vaccines for all	<ul style="list-style-type: none"> Created by Empowered People 	<ul style="list-style-type: none"> Occupational health programmes (page 49) Local occupational health programmes (page 50) Employee Assistance Programme (page 51)
	3.d	Strengthen the capacity of all countries, particularly developing countries, for early warning, risk reduction, and management of national and global health risks	<ul style="list-style-type: none"> Created by Empowered People 	<ul style="list-style-type: none"> Occupational health programmes (page 49) Local occupational health programmes (page 50)
 Goal 4 Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	4.4	By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship	<ul style="list-style-type: none"> Created by Empowered People 	<ul style="list-style-type: none"> Supporting our employees with continuous learning (page 38) Promoting individual career plans (page 39)
	4.7	By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development	<ul style="list-style-type: none"> Circular Driven Solutions 	<ul style="list-style-type: none"> Building sustainability skills across our organisation (page 27)
	4.a	Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all	<ul style="list-style-type: none"> Created by Empowered People 	<ul style="list-style-type: none"> Including people with disabilities (page 42) Embedding inclusive behaviour (page 41)
	4.b	By 2020, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and African countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries	<ul style="list-style-type: none"> Responsible Business Practices – Communities 	<ul style="list-style-type: none"> Making a difference with our social investment (page 84)

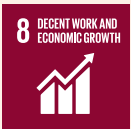

SDG index continued

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report	
 <p>Goal 5 Achieve gender equality and empower all women and girls</p>	5.5 Ensure women’s full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life	● Created by Empowered People	The ‘Curious Community’: connecting colleagues across Mondi (page 41) Case study: Leading by example: Mondi South Africa’s gender diversity and inclusion journey (page 42)	
 <p>Goal 6 Ensure availability and sustainable management of water and sanitation for all</p>	6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimising release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally	● Responsible Business Practices – Environmental performance ● Taking Action on Climate	Using water resources efficiently (page 70) Monitoring water returned to water bodies (page 71) Managing water risks (page 64) Improving our biodiversity management (page 64)	
	6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of fresh water to address water scarcity and substantially reduce the number of people suffering from water scarcity	● Responsible Business Practices – Environmental performance ● Taking Action on Climate	Using water resources efficiently (page 70) Monitoring water returned to water bodies (page 71) Managing water risks (page 64)	
	6.5 By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate	● Responsible Business Practices – Environmental performance	Using water resources efficiently (page 70) Case study: Investing in our mill in Bulgaria to reduce water use (page 72)	
	6.6 By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes	● Taking Action on Climate	Managing water risks (page 64) Improving our biodiversity management (page 64) Key principles of our landscape approach (page 65)	
	6.b Support and strengthen the participation of local communities in improving water and sanitation management		● Responsible Business Practices – Environmental performance	Monitoring water returned to water bodies (page 71) Listening to communities (page 75)
			● Responsible Business Practices – Communities	Making a difference with our social investment (page 84)

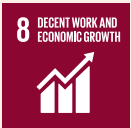

SDG index continued

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 Goal 7 Ensure access to affordable, reliable, sustainable and modern energy for all	7.1 By 2030, ensure universal access to affordable, reliable and modern energy services	● Taking Action on Climate	Reducing our greenhouse gas emissions (page 54) Avoided emissions (page 57)
	7.2 By 2030, increase substantially the share of renewable energy in the global energy mix	● Taking Action on Climate	Reducing our greenhouse gas emissions (page 54) Scaling action towards Net-Zero (page 55) Land use emissions (page 55) WBCSD FSG - Forest Sector Net-Zero Roadmap (page 55)
	7.3 By 2030, double the global rate of improvement in energy efficiency	● Taking Action on Climate	Case study: Achieving energy self-sufficiency in Türkiye (page 56) Investing in our production sites (page 56)
	7.a By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology	● Taking Action on Climate	Land use emissions (page 55) WBCSD FSG - Forest Sector Net-Zero Roadmap (page 55) Avoided emissions (page 57) Collaborating on Scope 3 emissions reduction (page 59)

SDG index continued

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 Goal 8 Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value-added and labour-intensive sectors	<ul style="list-style-type: none"> ● Circular Driven Solutions 	<p>In-house testing at Mondi laboratories (page 29)</p> <p>Case study: eCommerce performance lab to test packaging solutions (page 29)</p>
	8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalisation and growth of micro-, small- and medium sized enterprises, including through access to financial services	<ul style="list-style-type: none"> ● Taking Action on Climate 	Investing in our production sites (page 56)
	8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead	<ul style="list-style-type: none"> ● Responsible Business Practices - Communities 	Making a difference with our social investment (page 84)
	8.5 By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value	<ul style="list-style-type: none"> ● Circular Driven Solutions 	<p>Case study: Paper packaging to replace plastic shrink wrap (page 24)</p> <p>Assessing our portfolio (page 25)</p> <p>Transitioning to more sustainable solutions (page 27)</p>
	8.6 By 2020, substantially reduce the proportion of youth not in employment, education or training	<ul style="list-style-type: none"> ● Taking Action on Climate 	<p>Investing in our production sites (page 56)</p> <p>Managing water risks (page 64)</p>
		<ul style="list-style-type: none"> ● Responsible Business Practices - Environmental performance 	<p>Eliminating waste in our operations (page 74)</p> <p>Case study: Leveraging industrial and municipal wastewater treatment synergies (page 76)</p>
	8.5 By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value	<ul style="list-style-type: none"> ● Created by Empowered People 	Fair recruitment (page 42)
	8.6 By 2020, substantially reduce the proportion of youth not in employment, education or training	<ul style="list-style-type: none"> ● Responsible Business Practices - Communities 	Making a difference with our social investment (page 84)
		<ul style="list-style-type: none"> ● Created by Empowered People 	Early career development (page 39)
		<ul style="list-style-type: none"> ● Responsible Business Practices - Communities 	Making a difference with our social investment (page 84)
