

RE/CYCLE

HiProtex Paper

The recipe for a perfect fit

re/cycle HiProtex Paper is our heat-sealable, high-barrier, fibre-based solution designed for superior protection and sustainability.

Benefits:

- Runs on existing lines
- Customisable paper options for individual printability
- Natural visual aspect and touch
- Tailored oxygen and water vapour barriers
- Sun light barrier
- PremiumSeal for enhanced sealing performance
- Alternative of aluminum laminates

Applications:

- Dry food
- Confectionery
- Home & personal care
- Nutritional supplements
- Pet food
- Tea

Sustainability:

- As part of our re/cycle portfolio it is designed for recycling according to CEPI guidelines
- Recyclable in the paper stream or in the lightweight packaging stream, where collection facilities exist
- More than 80% paper content
- Sustainably sourced paper
- PVDC and aluminium foil free

Products:

- Grades available in the range of 94 gsm to 144 gsm with the base paper options being White Kraft or CCBK
