

Your

IS OUR CHALLENGE

eCommerce Fashion Paper and Packaging Solutions

Welcome to Mondi, your partner in crafting exceptional packaging for fashion and fashion accessories.

From perfecting protective solutions to optimising your supply chain and embracing sustainability, we're here to elevate your brand. Whether you're a seasoned fashion house or a rising star, let's create packaging that not only safeguards your garments but also supports telling your brand story.

In the fast-paced world of eCommerce, every detail matters. From the initial online browse to the unboxing moment, your packaging is a key player. Together, we'll design solutions that are as stylish as your products, ensuring a premium experience for your customers. Our commitment to sustainability means creating packaging that's both eco-conscious and high-performing. Let's redefine the unboxing experience together.

Height Sizer

Typical use:

Fashion, electronics, media, toys, hobby and DIY

- + Benefits**
The bottom and lid are dedicated to height reduction lines. By adjusting size of the packaging, the volume of parcels can be reduced by 25% on average, reduce the need in void-filling materials, and improve speed of packing. Suitable for single and multi-orders

- ✓ Features**
Wide range of sizes (the lowest height is 20mm), improved protection, 100% recyclable materials

- ≡ Options**
Outside and inside print, easy-to-open and easy-to-return

XFold Box

Typical use:

Fashion, shoes, accessories, universal

- + Benefits**
Fast-packing, theft-proof, easy close, easy open & return, great unboxing experience, enhanced protection
- ✓ Features**
Reinforced automatic bottom, overlapping top, double hotmelt strips, tear-tape opening
- ≡ Options**
Outside and inside print, inserts, zipper opening

Delight Box

Typical use:

Fashion, accessories, universal

- + Benefits**
Fast-packing, theft-proof, easy close, easy open & return, great unboxing experience
- ✓ Features**
Flat bottom, pull-up construction, double hotmelt strips, tear-tape opening, lightweight
- ≡ Options**
Outside and inside print, zipper opening

Supreme Box

Typical use:

Fashion, shoes, accessories, universal

- + Benefits**
Fast-packing, theft-proof, easy close, easy open and return, non-tear/cut, size adjustable to reduce logistics costs, great unboxing experience
- ✓ Features**
Automatic bottom, size adjustable with crease line system, closure strip, tear-open strip
- ≡ Options**
Up to four heights, printable outside and inside, zipper opening

MailerBags

Typical use:

Fashion items, accessories, books, universal

- + Benefits**
Fast-packing, enhanced protection, easy close, easy open & return, no air shipping, plastic free
- ✓ Features**
Wide range of standard sizes (S to XL), various gusset types (bottom, side and double-gusset)
- ≡ Options**
Outside print, papers with virgin fibers or recycled content are available

Protective Mailer

Typical use:

Small electronics, books, fashion accessories, personal healthcare, jewellery, spare parts

- + **Benefits**
Made out of open-flute (2-ply paper mailer), ideal for fragile and higher items
- ✓ **Features**
Open flute design for improved cushioning and added flexibility for bulky items
- ☰ **Options**
Additional hotmelt for returns possible, tear-tape available for easy opening, printable

Envelope Mailer

Typical use:

Small electronics, books, fashion accessories, personal healthcare, jewellery, spare parts

- + **Benefits**
Instantly ready to use, shipping less air, easy close, easy open
- ✓ **Features**
Single hotmelt strip, height adjustable, tear tape opening
- ☰ **Options**
Outside print, zipper opening

Kraftpaper for Mailers & FFS

Typical use:

Mailer bags, eCommerce form-fill-seal packaging, eGrocery bags

- + **Benefits**
Puncture resistance, excellent runnability, natural look & feel, robust protection for shipped goods
- ✓ **Features**
Widely recyclable, options with recycled fibers available (EcoVantage paper), certified compostable substrate, made of renewable materials, responsibly sourced (certificates upon request)

Kraft Paper for eCommerce Cushioning & Tapes

Our eCommerce portfolio is designed to meet specific packaging needs with water-activated tapes, gummed tapes and cushioning paper

Typical use:

Fashion, accessories, universal

- + **Benefits**
Paper-based alternative to plastic eCommerce packaging, good-to-high-strength properties, excellent runnability
- ✓ **Features**
Widely recyclable, options with recycled fibers available (EcoVantage paper), certified compostable substrate, made of renewable materials, responsibly sourced (certificates upon request)

FunctionalBarrier Paper

Our FunctionalBarrier Papers are fibre-based alternatives to plastics used for automation purposes on FFS packaging lines. The perfect packaging solution that offers high strength without compromising on the environment

Typical use:

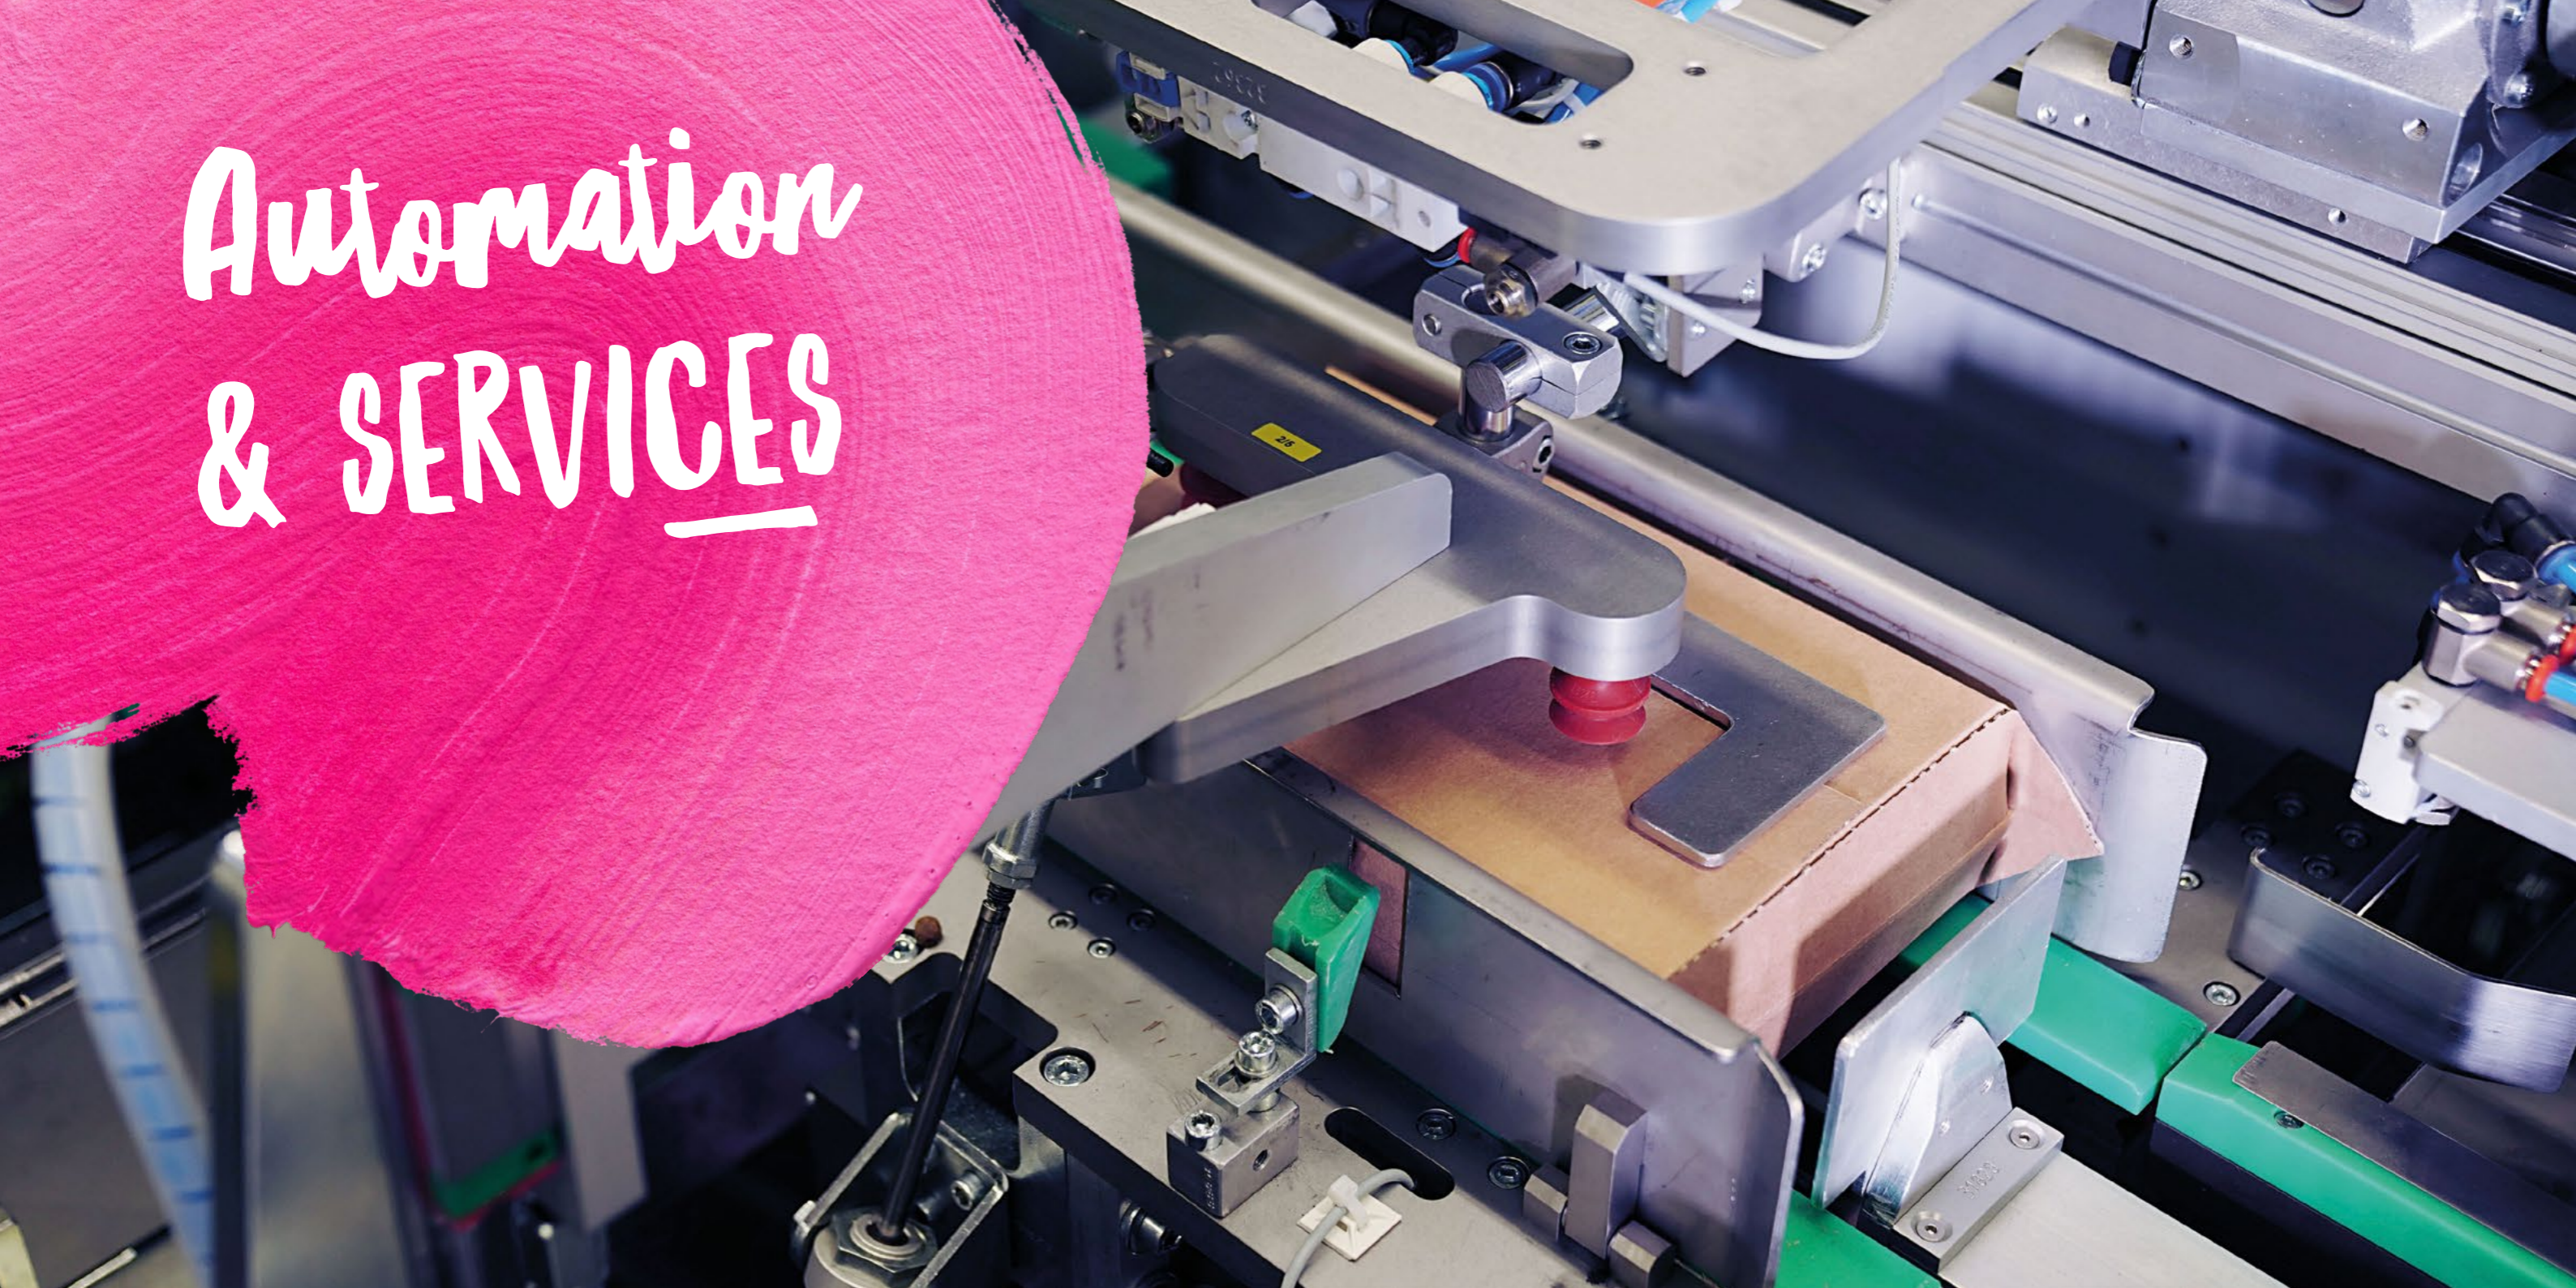

Dry and fresh food, frozen food, home and personal care, toys, eCommerce, industrial packaging

- + **Benefits**
Heat-sealable paper designed for recycling, excellent mechanical properties strength, high strength for higher filling weights, good printability, natural touch
- ✓ **Features**
Designed and manufactured to optimise material use, reduction of paper and polymers to a needed minimum, up to 95/5 paper to plastic ratio

The products featured here are part of a small extract of our existing fashion portfolio. If you'd like to learn more about the full eCommerce portfolio, or co-create your own solution, please feel free to get in touch.

Automation & SERVICES

Automation & Services

Discover Mondi's automation and services. Going beyond the expected, we excel in fulfilment automation, seamlessly transitioning from paper to machines. Mondi's expertise ensures not just compliance but elevated standards, offering innovative services that redefine efficiency and precision

Mondi Performance Lab

We perform ISTA standardised tests to ensure that your packaging suits your product and protects it in your specific supply chain.

Breakage Prevention

Rigorous testing of your product and packaging eliminates the risk of breakage, reducing costs, reputational damage and overall CO₂ footprint. Gain certainty with packaging that meets business partners' and carriers' requirements. Performance tests provide data-based evaluations, ensuring your packaging copes effectively with various stresses and allowing for rapid problem-solving.

Amazon-Approved Testing

Mondi's ISTA laboratory is an Amazon-approved member of APASS (Amazon Packaging Support and Supplier Network). This endorsement positions us as a preferred partner for testing Amazon's Tier 1-3 compliant packaging (FFP, SIOC, and PFP). This compliance aligns with the market standard, reducing packaging volume in eCommerce logistics.

Automation services for eCommerce

eComPack is a compact and easy solution for automating Mondi's EnvelopeMailer, which is the preferred corrugated mailer in eCommerce fulfilment.

With a footprint of only 14m², the eComPack machine has been cleverly engineered to facilitate full automation of the packing process, from scanning and opening the packaging to filling and closing.

Testing recyclability of paper-based products

Tests any fiber-based product that is made from kraft paper or containerboard, with or without coating (extrusion, dispersion), such as coated paper, laminated paper, barrier paper.

Sustainability

Our purpose is to contribute to a better world by making innovative, sustainable packaging and paper solutions.

At Mondi, we have a strong foundation of setting and delivering against sustainability targets. Our Mondi Action Plan 2030 (MAP2030) sustainability framework outlines our key commitments for the coming decade. We work together with our stakeholders to address risks, seize opportunities and guide more sustainable decision-making. We believe it is only through this collaborative spirit that we can realise the impact necessary to achieve positive change at scale.

Ever-changing production environments, supply chains, the eCommerce market, consumer demands and legislation prompt producers and retailers continuously **to reflect on, rethink and recreate their packaging solutions.**

ThinkBox by Mondi supports our customers at different stages in the packaging journey by co-creating hands-on solutions and bringing right people together, either physically in workshops or events, or digitally through interactive webinars.

ThinkBox offers three unique spaces in Central and Eastern Europe (CEE) and Turkey to co-create and inspire. Our flagship ThinkBox Bupak in Czech Republic also hosts the recently opened ISTA Laboratory.

A proven process, customer-specific preparation, different workshop blueprints, tools and methods ensure time well spent, whether you meet us at one of three ThinkBox facilities or anywhere else.

Innovating
WITH PURPOSE

At Mondi, we're not just another packaging company, we're your innovation partner

We're committed to creating groundbreaking solutions that address your unique challenges. We understand that the eCommerce packaging landscape demands more sustainable without compromise on the quality of protection.

Why choose Mondi as your packaging partner?

Innovative expertise

Our forward-thinking approach creates solutions that redefine the industry.

Sustainability at the core

Delivering circular solutions that are widely recyclable and even reusable, using sustainably sourced materials managed responsibly from forest to factory.

Protecting your products

Our ISTA-6 certified paper and packaging solutions are designed to safeguard your products during transit, ensuring they reach your customers in perfect condition.

Unmatched expertise:

We are among the world's leading authorities in paper, bags and boxes. Letting us create this cutting-edge solution.
