

SDG index

In this index we have mapped the SDGs and their respective targets against this report, and provided references to where supporting information on our contribution to each target may be found. Those SDGs and targets that fall under our six strategically important SDGs are highlighted in orange. See [page 29](#) for our thinking on strategically important contributions to SDGs.

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 <p>Goal 1 End poverty in all its forms everywhere</p>	<p>1.4: By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance</p>	Relationships with communities	<p>Mondi Zimele page 107 Infrastructure and community development – agri-villages page 106 Land reform in South Africa page 108</p>
 <p>Goal 2 End hunger, achieve food security and improved nutrition and promote sustainable agriculture</p>	<p>2.a: Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries</p>	Relationships with communities	Infrastructure and community development – agri-villages page 106
 <p>Goal 3 Ensure healthy lives and promote wellbeing for all at all ages</p>	<p>3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases</p>	Employee and contractor safety and health	Health and wellbeing page 46
	<p>3.8: Achieve universal health coverage, including financial risk protection, access to quality essential health care services and access to safe, effective, quality and affordable essential medicines and vaccines for all</p>	Relationships with communities	Health – Mobile Clinics page 106 Health page 106
 <p>Goal 4 Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all</p>	<p>4.2: By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education</p>	Relationships with communities	Case study: A spring board for early childhood learning page 106
	<p>4.4: By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship</p>	Relationships with communities A skilled and committed workforce	Education page 105 Case study: NEXT – building a talent pipeline at Mondi Syktyvkar, Russia page 53 Case study: From seed to success at Mondi Forests, South Africa page 53
	<p>4.b: By 2020, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and African countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries</p>	Relationships with communities	Case study: Championing technical education and career development in Poland page 105

SDG index

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 <p>Goal 5 Achieve gender equality and empower all women and girls</p>	5.5: Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life	Fairness and diversity in the workplace	Promoting diversity and inclusion (page 55); including the case study: Inspiring a roadmap for diversity and inclusion page 57
	 <p>Goal 6 Ensure availability and sustainable management of water and sanitation for all</p>	6.3: By 2030, improve water quality by reducing pollution, eliminating dumping and minimising release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally	Constrained resources and environmental impacts
 <p>Goal 6 Ensure availability and sustainable management of water and sanitation for all</p>	6.4: By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of fresh water to address water scarcity and substantially reduce the number of people suffering from water scarcity	Constrained resources and environmental impacts	Water page 77
	6.5: By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate	Constrained resources and environmental impacts	Managing our water-related risks page 78
	6.6: By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes	Biodiversity and ecosystems	Water stewardship page 91
		Ecosystems and biodiversity – WWF-Mondi Water Stewardship Partnership page 88	
 <p>Goal 7 Ensure access to affordable, reliable, sustainable and modern energy for all</p>	7.2: By 2030, increase substantially the share of renewable energy in the global energy mix	Climate change	Increasing energy efficiency and reducing carbon emissions page 71
	7.3: By 2030, double the global rate of improvement in energy efficiency	Climate change	Increasing energy efficiency and reducing carbon emissions page 71
	7.a: By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology	Climate change	Increasing energy efficiency and reducing carbon emissions (page 71) including the case study: Modernising the energy plant at our Syktyvkar mill page 72

SDG index

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 <p>Goal 8 Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all</p>	8.3: Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalisation and growth of micro-, small- and medium-sized enterprises, including through access to financial services	Relationships with communities	Mondi Zimele page 107 Case study: Funding youth-led enterprises for solutions to the SDGs page 107
	8.4: Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead	Constrained resources and environmental impacts	Resource efficiency page 77
		Biodiversity and ecosystems	The sustainable working forest page 86
	8.5: By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value	Fairness and diversity in the workplace	Employment and human rights page 57
		Relationships with communities	Employment and enterprise support page 106
	8.6: By 2020, substantially reduce the proportion of youth not in employment, education or training	Relationships with communities	Education page 105 Case study: Funding youth-led enterprises for solutions to the SDGs page 107
		A skilled and committed workforce	Case study: NEXT – building a talent pipeline at Mondi Syktyvkar, Russia page 53 Case study: From seed to success at Mondi Forests, South Africa page 53
		8.7: Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms	Fairness and diversity in the workplace
Supplier conduct and responsible procurement	Human rights in the supply chain page 97		
8.8: Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment	Employee and contractor safety and health	Ensuring the safety of our people page 41	
	Fairness and diversity in the workplace	Employment and human rights page 57	
 <p>Goal 9 Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation</p>	9.1: Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human wellbeing, with a focus on affordable and equitable access for all	Relationships with communities	Infrastructure and community development page 106
	9.2: Promote inclusive and sustainable industrialisation and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries	Integrated report and financial statements 2018 and Sustainable development report 2018	Entire reports
		Fairness and diversity in the workplace	Promoting diversity and inclusion page 55
9.3: Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets	Relationships with communities	Employment and enterprise support page 106	

SDG index

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 Goal 9 Continued	9.4: By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities	Climate change	Increasing energy efficiency and reducing carbon emissions (page 71) including the case study: Modernising the energy plant at our Syktyvkar mill page 72
		Constrained resources and environmental impacts	Resource efficiency – investments in BAT page 77
		Solutions that create value for our customers	Innovative. Every Day. page 114
	9.5: Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending	Stakeholder engagement matrix	Research institutions and academia page 141
		Solutions that create value for our customers	Innovative. Every Day. page 114
 Goal 10 Reduce inequality within and among countries			
 Goal 11 Make cities and human settlements inclusive, safe, resilient and sustainable	11.1: By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums	Relationships with communities	Infrastructure and community development – agri-villages page 106
	11.4: Strengthen efforts to protect and safeguard the world's cultural and natural heritage	Biodiversity and ecosystems	Maximising our positive impact: thinking globally, acting locally page 86
		Stakeholder engagement matrix	Ecosystems and biodiversity page 88
 Goal 12 Ensure sustainable consumption and production patterns	12.2: By 2030, achieve the sustainable management and efficient use of natural resources	Constrained resources and environmental impacts	Entire section page 76
		Biodiversity and ecosystems	Entire section page 85
		More paper less plastic? The wood supply chain needs to evolve	Entire article page 6
		Sustainable fibre	Entire section page 60
	12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses	Solutions that create value for our customers	Avoiding food loss and food waste page 116

SDG index

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 Goal 12 Continued	12.4: By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimise their adverse impacts on human health and the environment	Constrained resources and environmental impacts	Water – effluent and waste water quality page 79 Air emissions page 80 Waste page 82
	12.5: By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse	Constrained resources and environmental impacts	Waste page 82
	12.6: Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle	Sustainable Development report 2018 and Integrated report and financial statements 2018	Entire reports
 Goal 13 Take urgent action to combat climate change and its impacts	13.2: Integrate climate change measures into national policies, strategies and planning	Climate change	Entire section page 68
	13.3: Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning	Climate change	Transparency and benchmarking page 75
 Goal 14 Conserve and sustainably use the oceans, seas and marine resources for sustainable development	14.1: By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution	The end of an era for plastic waste?	Working together to lead the change page 4
		Solutions that create value for our customers	Tackling plastics in the environment page 116
 Goal 15 Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss	15.1: By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements	Biodiversity and ecosystems	Entire section page 85
	15.2: By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally	More paper less plastic? The wood supply chain needs to evolve	No deforestation page 11
		Biodiversity and ecosystems	Maximising our positive impact: thinking globally, acting locally page 86 Long-term productivity of forests page 90 Certification and compliance page 89
		Sustainable fibre	Where do our raw materials come from? page 61

SDG index

Goals	Targets	Relevant section within the reporting suite	Relevant sub-section within this report
 Goal 15 Continued	15.5: Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species	Biodiversity and ecosystems	Ecosystems and biodiversity page 88
	15.8: By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems and control or eradicate the priority species	Biodiversity and ecosystems	Ecosystems and biodiversity page 88
	15.9: By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts	Biodiversity and ecosystems	Maximising our positive impact: thinking globally, acting locally page 86
 Goal 16 Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels			
 Goal 17 Strengthen the means of implementation and revitalise the Global Partnership for sustainable development	Systemic issues Multi-stakeholder partnerships		
	17.17: Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships	The end of an era for plastic waste?	Working together to lead the change page 4 Calling for system-level change to tackle plastic leakage page 5
		Sustainable fibre	Collaborative approach to implement Controlled Wood in Slovakia page 65
		Solutions that create value for our customers	Collaboration across our value chain page 115
		Relationships with communities	Case study: A spring board for early childhood learning page 106 Education – INGWE page 105
		Biodiversity and ecosystems	Maximising our positive impact: thinking globally, acting locally page 86 Ecosystems and biodiversity page 88 Water stewardship page 91
	Stakeholder engagement matrix	Industry associations and NGOs page 134 Collaborative platforms and initiatives page 135
