

THE RIGHT ANSWER FOR ALL PRINTING NEEDS

YES, WE PLANT.

In fact, Mondi does a whole lot more than planting trees. 100% of our owned and leased forests – 2.1 million hectares in total – are FSC™ certified and all of our Mondi uncoated fine paper mill brands are also EU Ecolabel certified.

The Green Range logo is a symbol of high environmental performance in sustainable paper production. Mondi's Green Range products conserve resources and minimise emissions into water and the air. Our Green Range papers are produced in accordance with the strictest environmental and social standards, e.g. ISO 9001, ISO 14001, OSHAS 18001 and Best Available Techniques (BAT) standards. We also calculate the total carbon footprint of each product at each stage of the supply chain. Since its launch in 2006 the Mondi Green Range has become an integral part of our company philosophy. Today all Mondi branded papers, including all IQ products, fulfil Green Range criteria: FSC™ or PEFC™ certification for responsibly managed forests or 100% recycled paper or bleached totally chlorine-free (TCF).

At Mondi we are continually improving the eco-efficiency of our products and operations, and sustainability is an integral part of our corporate strategy. Our commitment to the environment is also reflected in our close collaboration with government organisations and NGOs. We have achieved numerous well-known certifications: FSC™, PEFC™, EU Ecolabel, Blue Angel and the Austrian Environmental Label. We have also received PPI (Pulp and Paper International) Awards for our environmental strategy and have a long-term partnering relationship with the World Wide Fund for Nature (WWF).

ALL YOU NEED IS IQ

THE INTELLIGENT PAPER BRAND

PROFESSIONAL PRINTING PAPERS

IN TOUCH EVERY DAY
www.mondigroup.com/IQ

- IQ SMOOTH
- IQ PREMIUM
- IQ COLOR
- IQ BOARD
- IQ UNIVERSAL
- IQ PRINT

Set out with IQ on the fascinating trail of human intelligence. Our cultural history reads like an endless library, richly filled with great ideas and knowledge. Since the cultural heyday of the Egyptians, paper has formed the extraordinary basis for storing and communicating knowledge. And even today, with the cutting edge innovations of robotics, it brings together ideas that would never find each other without this medium. Paper is the basic requirement of our civilisation.

Industry requires a stylistically confident, smart appearance in all business segments. This challenges professional printing to create eye-catching, attention-grabbing printed material. To obtain perfect printing results, it is important to focus on the right paper for each application and the right printing machine. IQ offers you many different shades of white, 36 colours as well as a variety of sheet sizes and reels. Our IQ range provides you with everything from a single source, with the best conditions for digital, offset and hybrid printing in addition to preprint and finishing.

With IQ, you no longer have to wrack your brain about the quality of your printing results. Benefit from our wide IQ assortment and impress your customers with the smart look and feel of excellent print communication, every day.

IQ - FILM

IQ SMOOTH THE PRESTIGE PAPER

PRODUCT BENEFITS

- Smooth finish for perfect colour reproduction
- Highest whiteness for contrast rich print jobs
- Perfect opacity
- Excellent runnability

PRODUKTMERKMALE

- Specially developed for digital colour printing on colour laser printers, copiers and digital colour presses
- From 80 to 300 g/m² for unlimited creative possibilities

TYPICAL APPLICATIONS

IQ PREMIUM THE HIGH-PERFORMANCE PAPER

PRODUCT BENEFITS

- High whiteness is ideal for high contrast applications
- Best in print quality, stability, runnability proven on all leading print machines
- One shade and quality from 60 to 400 g/m² for consistent appearance in any application
- Highest bulk leads to cost savings

PRODUCT FEATURES

- Optimised paper surface for digital dry toner printing
- Suitable for full colour applications
- Digital, preprint and offset guaranteed

IQ COLOR THE EXPRESSIVE PAPER

PRODUCT BENEFITS

- Versatility of possible finishing options – embossing, folding, perforating, stamping ...
- Constant superior quality for trouble-free printing – decreased costs for maintenance and avoiding machine stops
- High experience in providing customized solutions
- Extensive range of 36 shades (including black)
- Superb colour uniformity and surface structure for excellent appearance

PRODUCT FEATURES

- Recommended for sheet fed or web printing presses
- Compatible with preprint applications (offset and digital printing)
- High environmental profile with dyes complying with EN 71-3 (European Standard for Safety of Toys)
- Fully biodegradable & recyclable
- Heavy metal absence 94/62/CE

PRODUCT BENEFITS

IQ BOARD THE PACKAGING PAPER

PRODUCT BENEFITS

- Uncoated virgin fibre wood-free premium quality
- Combines perfect printing results with uncoated natural touch and feel for high value folding boxes
- Suitable for multiple applications (from consumer packaging to promotion articles)

PRODUCT FEATURES

- Especially suitable for sheet fed or web printing presses
- Ensuring a flawless process in printing, filling and converting
- Available in "white" and "ivory" shade

TYPICAL APPLICATIONS

www.mondigroup.com/IQ

IQ UNIVERSAL THE VERSATILE PAPER

PRODUCT BENEFITS

- Ideal choice for jobs which require a combination of offset and digital print
- Suitable for black & white and colour applications
- Exceptional runnability for increased production speed, trouble-free handling and less down-time
- Excellent low dust parameters, trouble free folding, embossing, dye-cutting
- Highest environmental credentials and low CO₂ emissions to emphasise your eco-conscious corporate identity and message

PRODUCT FEATURES

- Paper is available in a lean range of 75, 80 and 90 g/m²
- Optimal digital printing performance and offset suitability
- Carries the EU Ecolabel and is PEFC™ certified

TYPICAL APPLICATIONS

IQ PRINT THE MULTIFUNCTIONAL PAPER

PRODUCT BENEFITS

- Exceptional runnability for increasing production speed
- Perfect surface for an even print result
- High dimension stability for sharp multi-coloured print results
- Highest environmental credentials and low CO₂ emissions to emphasise your eco-conscious corporate identity and message
- Suitable for full colour applications

PRODUCT FEATURES

- Recommended for sheet fed or web printing presses
- Multifunctional: From 70 to 400 g/m² in a variety of formats for more choice with applications and further finishing
- Performance: For your competitive advantage every day developed in close cooperation with leading OEMs
