

easy-pak

easy-pak – packed three times as fast with easy-pak

As customers develop global growth strategies and supply chains become more complex and diverse, packaging must develop in parallel with them.

easy-pak from Mondi offers a number of key benefits, including easy handling, warehouse cost optimisation and an erecting process that's three times as fast as for a large standard corrugated case. Simply pull up the packaging and the bottom closes automatically; and unlike a standard American case, **easy-pak** does not require adhesive tape for the bottom flaps, thus eliminating a handling step.

Thanks to **easy-pak's** special design, different board grades can be used for the bottom and sides (e.g. an extra strong grade for the sides for additional stacking

strength, and a lighter grade for the base with minimal load-bearing function), thereby conserving resources.

Key benefits:

- Fast, easy handling helps optimise process costs
- Lower warehousing costs
- Bottom flaps close automatically when erecting the case
- Flat base
- No adhesive tape required for bottom flaps
- Seven standard sizes; custom solutions available
- Wide range of dimensions and board grades available
- Excellent load-bearing capacity

Optimising processes – quick handling

While others are still preparing, **easy-pak** has you already good to go.

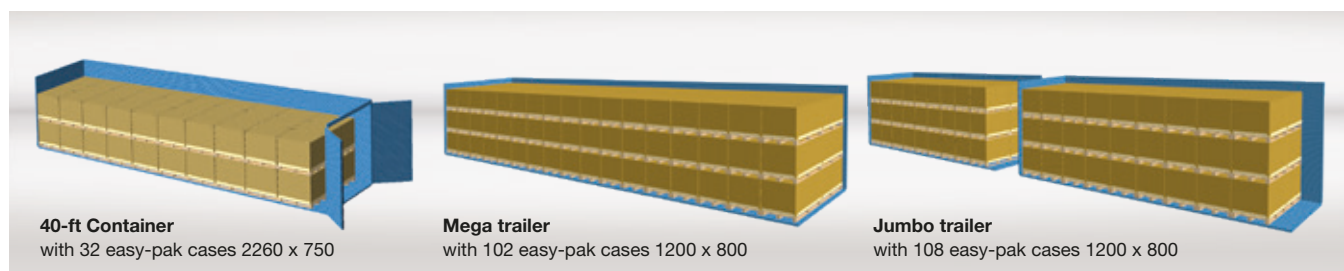

Our easy-pak standards are optimised by freight space

easy-pak standard range

External dimensions (mm) Internal dimensions (mm)	Type of container/trailer	Maximum number of units / carrier At a pallet height of 150 mm each	Volume (m ³)	Maximum load (kg)
1200 x 800 x 800 1170 x 770 x 765	Mega trailer (13.60m)	102	0,69	450
	Jumbo trailer (7.60m + 7.60m)	108	0,69	450
1140 x 760 x 800 1110 x 730 x 765	Container 40 ft standard	60	0,62	450
